Department of Medicine

Bending Health Toward Justice

A Note from Our Director

Dear friends,

As challenging political developments threaten to undermine our critical work in health equity, we reaffirm our most fundamental commitments. We stand resolute in the face of policies that seek to marginalize and divide, knowing that our research and advocacy are more important now than ever before.

Our center, our colleagues, and the university that unites us, will continue to conduct groundbreaking research that illuminates health disparities, develop evidence-based interventions that support underserved populations, and advocate fiercely for policies that advance health as a fundamental human right.

We are taking this moment and transforming challenges into opportunities for meaningful change, guided by our unwavering principles of justice, inclusion, and compassionate action. The strength of our work lies in our collective commitment. We will not be deterred by political impediments, but instead will redouble our efforts to create systemic change.

Our mission transcends politics. This newsletter marks our dedication to supporting those most at risk and building a more equitable healthcare landscape for all.

In community,

ARC ACHIEVEMENTS

ARC Core Faculty Dr. Alicia Fernández Appointed to the U.S. Preventive Services Task Force

ARC Core Faculty and Executive Committee Member, **Alicia Fernandez, MD**, was appointed to the **U.S. Preventive Services Task Force**. Dr. Fernandez joins UCSF School of Medicine colleague Sei Lee MD, MAS, in developing evidence-based recommendations on preventive care.

As an independent, volunteer panel of national experts in disease prevention and evidence-based medicine, the Task Force works to improve the health of people nationwide by making evidence-based

recommendations about clinical preventive services.

Dr. Fernandez is a Professor of Medicine at UCSF, a general internist at Zuckerberg San Francisco General Hospital, and Associate Dean of Population Health and Health Equity for UCSF SOM. She is the founding Director of the UCSF **Latinx Center of Excellence**, a HRSA and UCSF funded initiative to increase academic diversity. Dr. Fernandez directs the Latinx and Immigrant Health Research Program at ARC, which generates actionable research to increase health equity and reduce healthcare disparities.

Elaine Khoong Appointed Medical Director of Quality and Patient Safety

ARC Associated Faculty member and general internist and clinical informaticist at ZSFG, **Elaine Khoong, MD, MS**, is now the Medical Director of Quality and Patient Safety in ZSFG's Department of Medicine.

In this role Dr. Khoong will coordinate and implement quality of care initiatives provided by the Department's clinical services in the inpatient and outpatient settings, continuing to improve the care of patients "to ensure that it is safe, patient centered, effective, efficient, and timely," announced Dr. Neil Powe, Chief of Medicine at ZSFG, Constance B. Wofsy Distinguished Professor, UCSF Vice-Chair of Medicine, and Core ARC Faculty member.

Dr. Khoong's experiences as a primary care clinician caring for diverse patients within a safety-net setting drive her research interests. Interested in leveraging technology and implementation science to improve equity in delivery of primary care, Dr. Khoong's research aims to reduce chronic disease disparities in historically excluded populations. As a Principal Investigator at the **IgNITE Lab**, she guides quality improvement efforts to improve diabetes and hypertension outcomes in primary care, within the San Francisco Health Network's 14 clinics.

MEDIA HIGHLIGHTS

Margaret Handley's intimate portrait of a family heirloom, The Fern Mandolin, was chosen by Science Magazine's visual team as one of their year's favorites. ([Science](#))

Alicia Fernandez is part of a team of authors whose recent work was highlighted by UCSF News: Feel Left Behind by Digital Health Tools? You're Not Alone. ([UCSF News](#))

Margot Kushel explained the increase deaths from exposure to extreme temperatures is due to the growing number of older individuals within the homeless population ([San Francisco Chronicle](#)). Margot also reflected on the significance of home, touching on elements of loss and stability in the Los Angeles fires. ([KCRW](#))

Elaine Khoong presented at Health Informatics Grand Rounds, discussing implementation of digital health interventions for safety net populations. ([IgNITE Lab](#))

Leslie Suen considered the low-dose initiation's low rates of success in the outpatient setting among people with opioid use disorder who use fentanyl. ([SF Examiner](#))

Bimla Schwartz and **Jinoos Yazdany** spoke with the UCSF Department of Medicine newsletter and shared their appreciation and points of pride in working within the UCSF community. They were joined by multiple staff and faculty colleagues closing out the last year with testament to the value of shared purpose. ([UCSF DOM newsletter](#))

ARC OPPORTUNITIES & EVENTS

Food Insecurity: From Research to Practice and Policy

Facilitated by ARC Affiliated Faculty member, **Courtney Lyles, PhD**, and Marianne Page, this event features short presentations by guest speakers, including ARC Core Faculty and Executive Committee Member, **Hilary Seligman, MD, MAS**, followed by an interactive Q+A.

February 25, 2025 | 3-4:30 p.m. PST
Social Sciences and Humanities Building
Andrews Conference Room, 2203
250 N. Quad Davis, CA 95616

Submit this form to attend in-person or online via Zoom.

Sponsored by the UC Davis Center for Healthcare Policy and Research and the Center for Poverty and Inequality Research.
